

# François Granade

## Technology Due Diligence Services

### When I come

- Seed, Series A investors
- Lack of clarity in the delivery ability, technology of a software product
- As a complement to financial and legal Due Diligences

### What I cover

- Technology risks: open-source, third-party libraries, maintainability, scalability
- Team scalability: skills, maturity, process flexibility
- Cost scalability: hosting, licensing
- Security: procedures, best-practices
- Quality, technical debt, end-user feature quality
- Acceleration advice

20+ TECH  
AUDITS PERFORMED

100%  
RETURNING CLIENTS

25 YEAR  
EXPERIENCE

### Why me

- Cofounded 5 successful startups (Silicon Valley, Europe)
- Experience in all aspects of software products: SaaS, Social, tools & platforms....
- Cofounder of nexB, recognized expert on Open Source liability (Software Composition Analysis, License compliance)
- Immediate availability, quick turnaround
- Strong track record: complete client satisfaction
